PROGRAM

SUNLIGHT & LIGHT POLLUTION

10:00 Marco Bischof (Germany): Biophotons and the quantum effect of weak light.

11:00 Reinhard Gerl (Germany): Light pollution - what can we do? Computer glasses.

12:00 Harald Kautz-Vella: The visible and invisible parts of the light spectra.

01:00 Lunch.

INNOVATIVE EQUIPMENT FOR LIGHT THERAPY

14:00 Karl Rydberg (Sweden): Photobiology and light therapy.

15:00 Thomas Aksnes (Bergen): Evidence of monochromatic light therapy via voice analysis.

16:00 Silvio Lachmann (Germany): Light therapy, electromagnetism and the heart.

17:00 Ingelin Vestly og Raphael Kleimann (Norway):

Light-kinesiology and environmental medicine by Dr. Klinghardt.

Diagnosis of the biophoton field, therapy with laser and photon wave.

18:00 Renzo Celani: Biophoton measurement of human body;

Experiments in Prof. Popp's laboratories.

KOLLOKVIUM

19:00-21:00

Organized by: [BALDRON](#) in collaboration with www.Stemlandklinikken.no

Venue: Oslo, Josefinesgt.12 (Antropos bookstore) [see map here](#)

Conference fee: 500,- kr (students & pensioners 50%)

Info: Tel 90868558 randimarie.eide@ilacolor.org

Detailed program and booking: www.baldron.org/events

See event on [Facebook](#)

Please see our other event [«Light-day» Friday 11th. mai](#) at The Unity Senter:

DROP IN

Demonstrations, sample treatments, conversations about light and color therapy.

LECTURE

Light for beauty and health • Light in our cells • Light therapy for detoxification.

Organized by:
